THE NXT SUCCESS STORY

NXT has been successful in creating a calendar event in India, hosting many global luminaries who had never travelled here before.

In coordination with Gol, meetings and tours were organised. Gol officers held side-line meetings on sector briefs, investment opportunities from ports, technology and manufacturing.

The event brought together the best of academicians from places like MIT & Cambridge, with the best of business leaders running multi-billion dollar global firms and government leaders from across the world.

Tours were organised to the new Indian parliament, 21 of the dignitaries had a meet & greet with PM Modi and India's priority projects like IMEC, UPI, Millets etc were showcased both on and off stage.

Scholars and professors from MIT were taken to visit IIT and hold meetings, substantive policy conversations were held to promote investment and institutional connections in varied sectors like Nuclear Energy, Space, Quantum Computing, Mobility, Governance, Science & Media.

By way of example, PM Modi's letter to astronaut Sunita Williams on board the ISS was transmitted via NASA's Mike Massimino who attended NXT.

THE FULL 360 IMPACT

NXT Delegate Scott Faulkner (Fmr. Director, Personnel to President Reagan) touring PM Museum.
